About Us

ARC Geoscience Consulting, PLLC (ARC) is a New York State professional corporation owned and operated by Jessica L McEachern. We are a New York City certified Woman-Owned Business, with NY State Woman-Owned Business recognition pending.

ARC runs field investigations involving hydro-geological testing, geophysics and sampling programs. The firm also provides Environmental Data Management as required by regulatory agencies and FEMA.

ARC can provide cost-effective, defensible environmental site assessments for real-estate transactions, re-financing and for Brownfields development opportunities.

Personnel

Jessica L McEachern, Principal, is a NY Licensed Professional Geologist with 18 years of project experience. She has BS and MS degrees in Geology from State University of New York (SUNY), Stony Brook and is a member of the American Institute of Professional Geologists (AIPG) and the Long Island Association of Professional Geologists (LIAPG). Her graduate studies and thesis have given her excellent research skills and a specialization in sedimentology.

Michael J McEachern, PG is a consultant and associate of ARC with over 50 years of professional experience throughout the US and in Canada and the Caribbean. He is a key player in professional teaming arrangements with consulting engineers and project principals.
